### Program Description:

Magnet students will experience arts and technology infusion throughout their instructional day. Students with special aptitudes for interest in art, music, physical education, technology, and theater will enjoy this program. Magnet students build individual strengths and talents when they participate in an elective that focuses on the school's theme. Additionally, Emma K. Doub is currently an Apple Distinguished School with several Apple Certified teachers. Students use iPads and other technology to regularly collaborate and complete projects in a digitally-driven environment, focusing on problem-solving, critical thinking, creativity, collaboration, innovation, and communication. All students have opportunities to regularly access interactive whiteboards, digital and video cameras, laptops, and other technologies to demonstrate understanding with iMovie, Educreations, and other high-tech applications. Students engage in online learning communities and are offered opportunities for choice in tools/formats suited to their individual learning styles. Emma K. Doub teachers and students have earned state and regional recognition, not only in the visual and performing arts, but also for their service to the community. Students are expected to complete summer assignments, which "frontload" content and allow magnet teachers to increase the depth of unit exploration throughout the school year.

### Fast Facts:

1. Technology includes interactive whiteboards, 3-D Printing and Green Screen Technology.
2. Emma K. Doub is recognized as an Apple Distinguished School.
3. After school academies include Battle of the Books, Ultimate Frisbee, Coding/ Robotics, and Girls on the Run.

**Application Deadline:** March 1, 2019
