Program Description:

The STEM Academy is designed to begin the student's educational journey to meeting the needs of an ever-changing technological society and the need for solutions to complex problems. They have an opportunity to pursue coursework in several engineering pathways, a great basis for choosing any college major and career in science, technology, engineering, or math.

Fast Facts:

1. Participate in the Robotics Club
2. Fun with rocket propelled cars
3. Hands-on activities
4. Annual STEM Day to showcase projects

School-Based Open House Date: early February 2017

Application Deadline: March 1, 2017
